VOTE YES—A-3726/S-2553

ExxonMobil, Shell, and other Big Oil Companies are leaving the retail market in New Jersey and around the Nation, but are not willing to allow Franchisees who have built these business the opportunity to purchase their locations. This legislation manages the playing field, and allows franchisees the opportunity to purchase these businesses at a price equal to the highest bid of another potential purchaser. This legislation is simply a courtesy being placed into statute. Without this legislation Big Oil WILL compromise the future of New Jersey's Motor Fuel Market!
