

NEW JERSEY EMISSION INSPECTOR TRAINING

REGISTRATION PAGE

page 1 of 2

In order to be licensed as a **Motor Vehicle Emission Inspector**, an applicant must complete an approved training program that provides a detailed understanding of inspection related issues. NJGCA is proud to offer a course that is comprehensive and fulfills all state requirements. Our course curriculum includes an overview of state rules and regulations as they pertain to inspection and various emission repair issues. Technicians will be required to pass both a Written and Hands-On exam. Technicians passing these exams will be certified and licensed as Motor Vehicle Emission Inspectors.

PLEASE NOTE:

- Due to the ongoing COVID-19 pandemic, the dates and times below are subject to change in compliance with ongoing public safety directives, as mandated by Federal and State officials. If a class is cancelled because of official government orders (or, alternatively, due to a directive by the property management company), we will make every effort to consult with MVC and reschedule the class in a timely manner.
- Your safety is a top priority. To safeguard the health of our students and staff, class participants are required to wear face covering while inside the building (including the common areas, the classroom, etc) and respect social distancing guidelines while attending our training.
